

ELAGNOCHETTA

INNOVATIVE - FUNCTIONAL - HYGIENIC

In 2012, the need for a beautifully printed cutlery sleeve without inserted napkin was identified. As a result, ELAG adjusted ELAGPochetta accordingly and developed Nochetta, a cutlery sleeve without napkin. If you want to stay with your current napkin, but take advantage of Pochetta's benefits, Nochetta is for you.

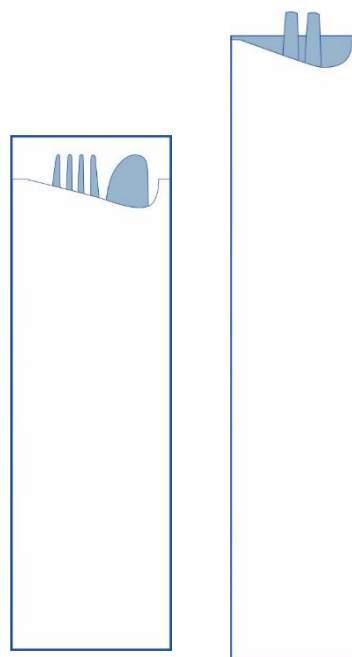

2 FORMATS FOR 2 APPLICATIONS

Nochetta comes in two formats. The standard format was developed to insert cutlery. The Asian format is a taller and narrower pocket. Nochetta Asia was designed for chopsticks, offering a beautiful, deluxe presentation of your chopsticks when nicely printed.

BENEFITS AND FUNCTIONALITY

- ~ **Timesaving:** Reduces table turn-over time.
- ~ **Outdoor use:** Napkins on terraces no longer get blown away by the wind.
